HOW WE GENERATED

**\$46,196.80 IN REVENUE FOR A
LIVE EVENT IN THE FIRST 30
DAYS AT A 17.63X ROAS ON
COLD TRAFFIC!**

PROBLEM

This live event was coming up and they wanted to sell tickets fast from the get go. They had made some organic posts on their social media but wanted to really ramp up their sales fast.

GOAL

Generate a large number of ticket sales for the upcoming event.

SOLUTION

The steps we took that allowed us to achieve these amazing results were to test different ad copy, audiences, headlines and testing new content to see what resonated best with the target audience. From here, we turned off what didn't work and focused all the ad spend on what was working the best to bring in the most amount of revenue for the lowest cost per purchase and highest ROAS.

The reason we were able to achieve such a great result was that we took the time to understand their target customer and test a lot of different ad variations from text to the image itself as well as the different audiences Facebook offers. By doing this we found the best audiences and ad fit and were able to grow their revenue while maintaining a very healthy ROAS.

We were able to generate \$46,196.80 in sales with only \$2,620.00 in ad spend at a 17.63X ROAS (Return On Ad Spend). They were extremely happy with these results and the sales have continued to grow since then.

**HOW WE GENERATED
\$116,411.49 FOR A PETS
ECOMMERCE COMPANY IN 30
DAYS WITH A 4.47X ROAS
WITH \$26,043.36 IN AD SPEND
EVEN AFTER IOS14.**

GOAL

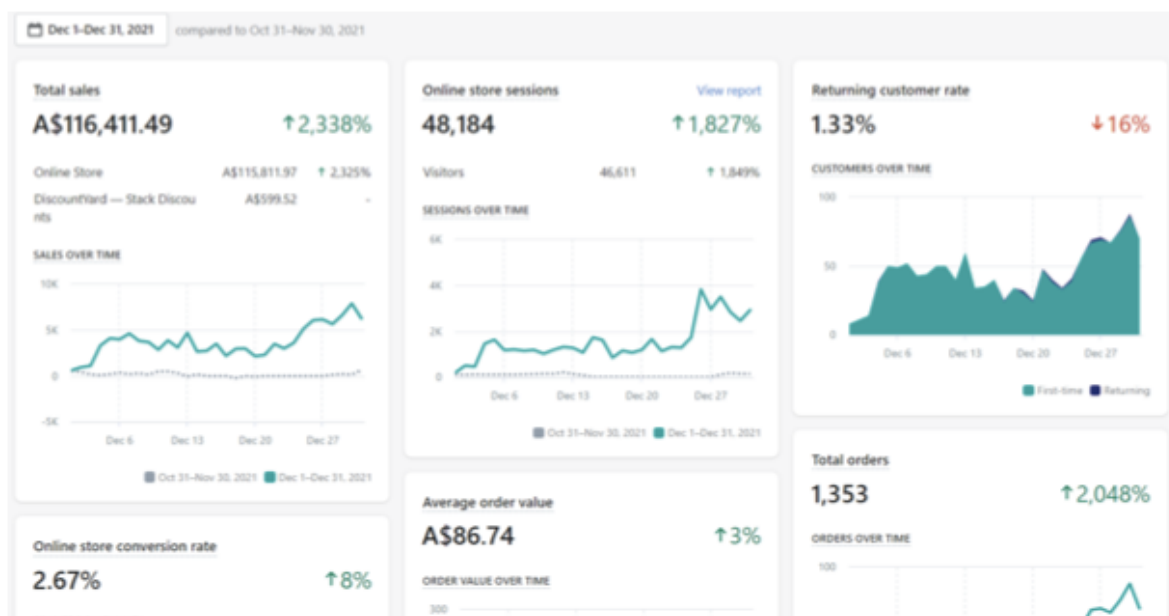

Grow Chompy Chews' online sales and maintain a healthy return on ad spend.

SOLUTION

In 30 days we were able to generate \$116,411.49 in sales at a 4.47X ROAS (Return On Ad Spend). We were extremely happy with these results and the revenue was strong into January as well finishing the Summer months strong.

The steps we took that allowed us to achieve these results were improving upon the copy and testing new content to see what resonated best with the target audience. From here, we turned off what didn't work and focused all the ad spend on what was working the best to bring in the most amount of revenue for the lowest cost per purchase.

The reason we were able to achieve such a great result was that we took the time to understand our target customer and test a lot of different ad variations from text to the image itself as well as the different audiences Facebook offers. Caravana Brisbane
Automotive Dealership

SERVICES USED

- Social Media Management
- Social Media Ads (FB/IG)

GOAL

We were tasked with decreasing their cost per lead and bringing in a larger volume or leads for the business.

SOLUTION

We joined together with Caravana Brisbane to generate more leads through Facebook Advertising to buy used cars and caravans and sell used cars and caravans. Within the first 30 days of the campaign, we were able to drop their cost per lead from \$30 down to just \$6.75 per lead and generated 35 leads in the first 30 days - with only \$236.24 in ad spend.

How we did it:

- Improving upon the copy and testing new content to see what resonated best with the target audience.
- Turned off what didn't work and focused all the ad spend on what was working the best to bring in the most amount of leads for the lowest cost per lead.

The reason we were able to achieve such a great result was that we took the time to understand their target customer and test a lot of different ad variations from text to the image itself as well as the different audiences Facebook offers. By doing this we found the best audiences and ad fit and were able to drop their cost per lead significantly in a short time period.

HOW WE GENERATED 35 SELLER LEADS AT \$6.75/LEAD FOR AN AUTOMOTIVE COMPANY.

PROBLEM

This Queensland based Dealership company was struggling to generate affordable leads for people looking to sell their used Car/Caravan. They had tried generating leads through Facebook Advertising but were unable to 'crack the code'. Their previous cost per lead before working with us was \$30.

HOW WE GENERATED 231
BUYER LEADS AT
\$2.99/LEAD FOR A
CARAVAN DEALERSHIP
LOOKING TO SELL MORE
CARAVANS.

GOAL

We were tasked with decreasing their cost per lead and bringing in a larger volume of leads for the business.

PROBLEM

This Queensland based Caravan Dealership was struggling to generate affordable leads for their business of people who want to buy a Caravan, and they weren't getting enough leads through their Facebook Advertising.

SOLUTION

We partnered with Caravana to generate more leads through Facebook Advertising to buy and sell caravans. Within eight weeks of this campaign, we were able to generate 231 leads from new prospects at \$2.99/lead.

How we did it:

- Improving upon the copy and testing new content to see what resonated best with the target audience.
- Tested a range of different audiences to find out the best performing audiences.
- Turned off what didn't work and focused all the ad spend on what was working the best to bring in the most amount of leads for the lowest cost per lead.

The reason we were able to achieve such a great result was that we took the time to understand their target customer and test a lot of different ad variations from text to the image itself as well as the different audiences Facebook offers.

Halo Fitness South Melbourne Gym

SERVICES USED

- Social Media Ads (FB/IG)

HOW WE GENERATED 158 LEADS AT \$13.81/LEAD FOR A HIGH-END GYM!

PROBLEM

This high-end gym in Melbourne was a new startup gym that began early in 2021 and needed to bring in a lot of new members quickly. They wanted to grow their business on social media and generate a high volume of leads through the door to signup.

They had previously worked with another agency that was generating them leads for \$70/lead. They needed to lower this cost per lead.

GOAL

We were tasked with bringing in more paying members and dropping their current cost per lead.

SOLUTION

We focused on understanding their target customer completing an audit and doing deep customer research to really gauge why someone would spend more on a higher-end gym and speak to their fears, pains, aspirations and desires.

We focused on improving the copywriting in the ads to hit on the pain points of our target customer and using content for our ads that looked natural and organic. We tested our images, ad copy, and headlines, found the winners and focused all of the ad spend on the best performing images, ad copy, and headlines. This allowed us to bring them a consistent flow of leads through the door into their business.

We were able to generate 158 leads over 2 months at \$13.81/lead. We started at around \$22/lead in our first month of advertising with them and now we have found our best performing ads and audiences, we are able to drop their cost per lead and bring them consistent leads.
